

SELLUBRIOUS RETAIL

Sellubrious Retail Bio degradable wine bags

Sellubrious Retail introduces our collection of 100% biodegradable wine bags for retail and wholesale. Our wine bags are available in 1, 2, 3, 4 and 6 bottle bags in a variety of designs.

Our quality wine bags have 60-80 times more usage than paper. The bags are made of jute material, which is very sturdy and can easily hold the weight of the wine bottles.

The bags can be customized as required by our clients and therefore can be used as promotional bags and packaging.

Consumers today demand that business show a responsibility to the environment. Our wine bags are degradable and reusable, therefore reflecting the value of today's customers and wineries alike.

- 3 Bottle: 35 X 28 X 10

What is jute?

Jute is one of the least expensive natural fibres and is second only to cotton in amount produced and variety of uses. Jute is an extremely flexible and sturdy material. It is 100% biodegradable and can be used for promotional packaging, packaging and products like handbags, utility bags, etc.

Jute is very popular in Europe and USA and is gaining popularity in Australia and Asia. In Singapore, we have created biodegradable jute promotional packs for cosmetic companies as well as promotional and shopping bags for retail stores, F&B companies and pharmaceutical companies.
